OBJECTIVE

I am Marlon Velasco, a fresh Computer Science graduate from the Polytechnic University of the Philippines.

I am open to roles in administrative support, data annotation, QA testing, web development and design, where I can contribute to team operations and deliver accurate and high-quality outputs.

I am seeking an opportunity to apply my technical knowledge, analytical thinking, attention to detail, problem-solving skills, and growth mindset. I also bring hands-on experience in UI/UX design using tools like Figma, along with user research, and foundational web development using HTML and CSS.

My goal is to contribute creative and technical value to a respected organization while gaining practical experience, strengthening my expertise in design and technology, and growing professionally in a dynamic work environment.

SKILLS

Technical Skills

- **Front-End Development Basics:** HTML, CSS
- **Programming Languages:** Java, Python
- **Human-Computer Interaction:** User Research, Testing, Accessibility
- **UI/UX Design:** Principles, Wireframing, Prototyping
